## NEW! VALTTI NON-SLIP

- water-borne, coarse wood oil
- increases surface grip
- colours available from the Tikkurila Translucent Wood Finishes colour card
- especially suitable for treating terraces, jetties and outdoor wooden steps
- suitable for both chemically and thermally treated wood, untreated wood and previously oil-treated wood
- tinted oil shade can be lightened with colourless Valtti Non-Slip

Tools	Tikkurila brush T3
Tool cleaning	Soap and water or Pensselipesu (Tool Cleaner)
Coverage	approx. 8 to 12 m <sup>2</sup> /l

## JUST FOLLOW THESE SIMPLE INSTRUCTIONS:

- Wash down the old, darkened wooden surface with Tikkurila Homeenpoisto (Mould Removal) or Tehopesu (Power Cleaner) solution as instructed on the label, and allow to dry.
- Sand down any wooden fibres sticking up from the surface and carefully remove all dust and residue.
- Stir the wood oil thoroughly before use and from time to time during application.
- When applying translucent finishes, the natural wood colour will always influence the final shade. Always apply to a test area first to avoid disappointment.
- Apply ONE coat of Valtti Puuöljy (Wood Oil), Valtti Puuöljy Akva (Wood Oil Akva) or Valtti Kaluste- ja Terassiöljy Ruskea (Furniture & Decking Oil Brown) with a brush or sponge.

Let the oil soak in and immediately wipe off any excess oil from the surface.

- Apply TWO thin coats of Valtti Non-Slip with a brush
- Check the condition of the oiled surfaces annually and maintain if necessary. Surfaces permanently exposed to weathering may need to be treated annually.
- We recommend tinting wood oils, as tinted oils are more weather resistant than colourless ones.

**NB!** Rags or cotton waste and sanding dust soaked in wood oils may be self-inflammable and must be soaked in water before disposal, dried outdoors, or burnt immediately after use.

## VALTTI WOOD OILS

ENHANCE THE NATURAL ELEGANCE OF WOOD

Protect and renew your garden and terrace furniture and other wooden structures – terraces, steps and jetties – with Valtti Wood Oils. They protect wood against moisture and dirt, and help reduce surface cracking and discolouration.

Valtti Non-Slip, our latest product, improves grip on wet surfaces after rain for example, and is ideally suitable for terraces, steps, and jetties.
